

Effortless Hoses

NAPA LAY-FLAT HYBRID POLYMER HOSES

Standard hoses can kink, curl and require extra effort to use. Avoid the hassle and opt for an effortless solution. NAPA Hybrid Polymer Hoses have zero memory, will lay flat and make the job easier, not harder.

CREATING A BETTER HOSE

Combining extensive customer feedback and exceptional engineering, NAPA has created superior hybrid polymer air, water and whip hoses. No longer forced to fight kinks, curls and inflexibility, this hose solution makes the job easier with every use.

Air Hose Part Numbers

1/4" X 25'	H280	1/4" NPT
1/4" X 50'	H281	1/4" NPT
3/8" X 25'	H282	1/4" NPT
3/8" X 50'	H283	1/4" NPT
1/2" X 25'	H284	1/2" NPT
1/2" x 50'	H285	1/2" NPT

Male coupling ends are standard.

Water Hose Part Numbers

5/8" X 50'	H286
5/8" X 75'	H287
3/4" X 50'	H288

Whip Hose Part Numbers

3/8" X 2'	H290
3/8" X 4'	H292
3/8" X 6'	H293

FEATURES YOU WANT. PERFORMANCE YOU DESERVE.

- › Lightweight, extremely flexible construction
- › Zero memory, allows it to lay completely flat
- › Superior bend radius and easy coiling after use
- › High abrasion and chemical resistance
- › Kink resistant, even under pressure
- › Heavy-Duty bend restrictors on both ends
- › 100% brass fittings and ferrules - Air Hose
- › Extreme flexibility, even in extreme cold -40°C to 60°C (-40°F to 140°F) - Air Hose
- › Heavy-Duty Nickel Plated fittings and spring guard - Water Hose
